

„Whether you're a competitive or a recreational athlete, the Cloud offers the matching workout for everyone.“

@marc_koch400

ICAROS Cloud 360

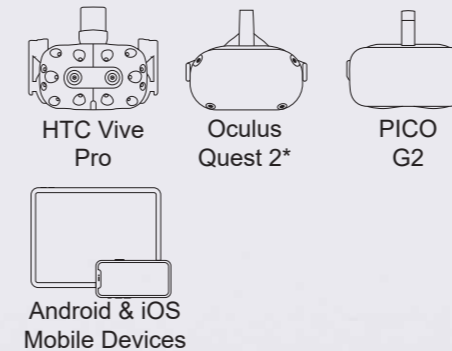

The Cloud, but smaller. Get the digital training experience in your smaller living room too! With a variety of exergames and workout classes in the app - easy to stow away, mobile and inexpensive. Whether a quick workout in between in the home office or the full session in your free time. The ICAROS Cloud

360 offers you an effective, digital workout for the whole body, anywhere and anytime. With the ICAROS Cloud 360, you can train with a virtual coach, hunt high scores at exergames or put together your own workouts. The difference to the ICAROS Cloud is the reduced size and thus the reduced training area.

The system comprises:

- ICAROS Cloud 360 device
- Air pump
- Bungees
- Tableholder

Compatible with:

*Only with link cable
**Tablet is not included
