

MILESTONES

- 2010** We invented Queenax, the first and only complete modular system for functional and suspension training.
- 2011** We won our first Innovation Award for Queenax.
- 2015** We launched the Reaxing project, an instant international success in the training sector. A real revolution.
- 2016** During the FIBO fitness fair in Germany we were awarded with our second Innovation Award for the Reax Board: the Smart floor.
- 2017** We received our third award for our Reax Chain. The only training tool with soft, flexible and unpredictable features.
- 2020** We launched One Infinity One: the first "All in one functional station" for proprioceptive, cognitive and neurofunctional training. It represents the synthesis of our DNA.
- 2021** We have now reached 50 countries all over the world.

AWARD-WINNING INNOVATIONS
